Work Experience

- 03/2018 – present **Educating myself in the field of machine learning**
Through courses and Kaggle competitions
- 02/2019 – 04/2019 **Software Developer IoT at Wittmann Battenfeld**
Programmer on the B8 machine control unit using C# and Winforms
- 05/2018 – 09/2018 **Software Developer at Gabriel-Chemie**
www.gabriel-chemie.com
Engineering Database Software with Progress
- 08/2017 – 01/2018 **Web-Developer at Atimis**
www.atimis.at
Developing a aws hosted web application using Angular2, Typescript and HTML/CSS
- 07/2014 – 08/2014 **Internship Softwaredevelopment**
www.variotherm.com
Software for dimensioning of their Systems.
Continually developed until 2018, C# (Windows Forms)

Education

- 08/2018 – present **Kaggle Competitions and Tutorials**
Learning of different Machine-Learning techniques
Building practical experience in the field with Python
- 08/2018 – 10/2018 **fast.ai Deep Learning 2018 online course**
Learning how to implement deep learning for structured and unstructured data
- 10/2011 – 06/2016 **HTL Wiener Neustadt, Department EDVO**
Developing of software applications
Math and Physics focus with programming
Diploma Thesis: Python vs C++ Benchmarking
- 10/2007 – 09/2011 **BG Babenbergerring, academic high school**
Languages: English, Latin
Basics in Math, Science und IT

Skills

- Languages: **German:** native – C2
English: fluent – C1
- Programming: Python: fast.ai, LightGBM, XGBoost, Flask;
C#, Java, Javascript, HTML, CSS, Angular2, SQL
- Development: git, docker, scrum, anaconda/virtual env,
jupyter notebooks, google cloud compute

Interests & Hobbies

Podcasts, Machine Learning, Series, Video games
