Christian Unterrainer

💼 Software Developer, Data Scientist

🏠 Austria, Wiener Neustadt

📞 Phone: +43 660/1236463

✉ chr.unterrainer@gmail.com

✳ Skills

Software Development

`70%`

Web Development

`55%`

Data Science

`80%`

⚙ Tech Stack

Python: fast.ai, Pytorch, Tensorflow, LightGBM, XGBoost, Flask

C#, C++, Java, Angular2, Typescript, HTML, CSS, SQL

▦ Dev Ops

Visual Studio, IntelliJ, Jupyter-Notebooks, Anaconda, Google Cloud, Git, Github, Docker, Scrum

🌐 Languages

German

English

💼 Work Experience

Educating myself in the field of machine learning

📅 Mar 2018 - `present`

Through courses and Kaggle competitions.

Software Developer IoT at Wittmann Battenfeld

📅 Feb 2019 - `Apr 2019`

Software Developer on the B8 machine control unit using C# and Winforms.

Software Developer at Gabriel-Chemie

📅 May 2018 - Sept 2018

Engineering Database Software with Progress.

Web-Developer at Atimis

📅 Aug 2017 - Jan 2018

Developing of a cloud based web application using Angular2, Typescript and HTML/CSS.

Internship at Variotherm Heating Systems

📅 Jun 2014 - Aug 2014

Software for dimensioning of their Systems. Continually developed until 2018, C# (Windows Forms).

✿ Education

Kaggle Competitions and Tutorials

📅 Aug 2018 - present

Learning of different Machine-Learning techniques. Building practical experience in the field with Python

fast.ai Practical Deep Learning for Coders 2018 online course

📅 Oct 2018 - Dec 2018

Learning how to implement deep learning for structured and unstructured data

HTL Wiener Neustadt, Department EDVO

📅 Oct 2011 - Jun 2016

Developing of software applications; Working with database systems; Handling of software-engineering projects
Thesis: Python vs C++ Benchmarking

BG Babenbergerring, academic high school

📅 Oct 2007 - Sep 2011

Languages: English, Latin; Basics in Math, Science und IT
